*La rosace*

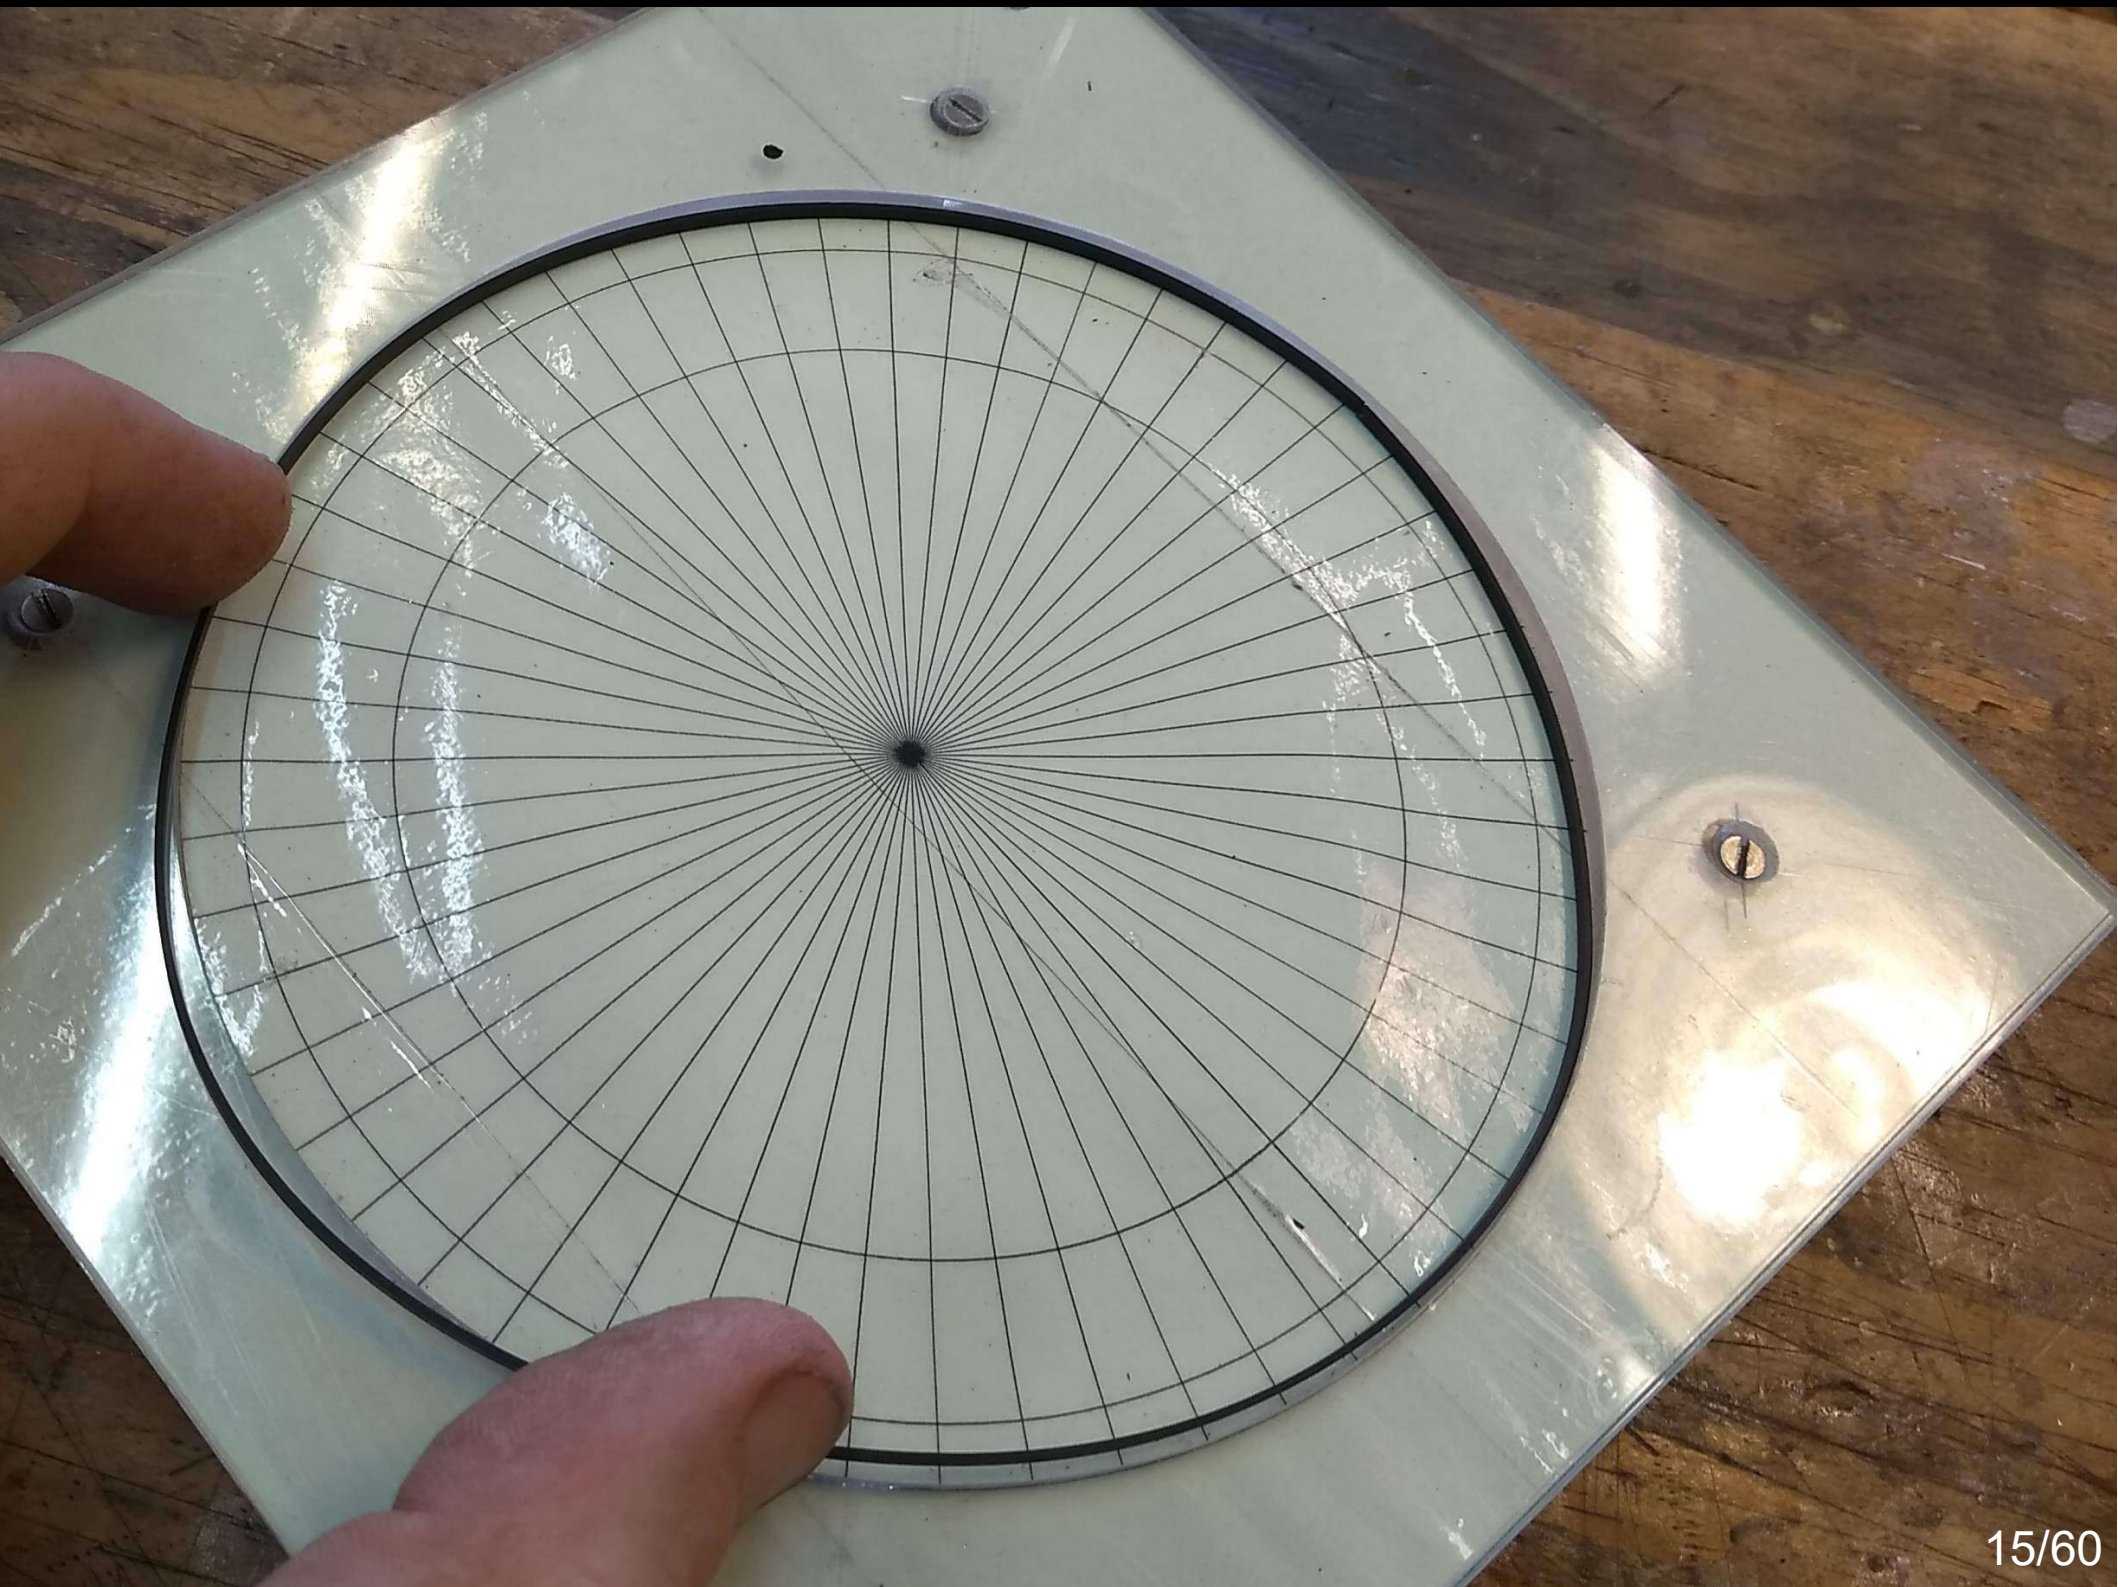

A circular geometric pattern composed of concentric lines and nested triangles. The pattern is divided into four quadrants by two perpendicular lines. Each quadrant contains a series of nested, slightly offset lines that create a 3D effect of depth. The lines are black and white, and the overall design is symmetrical.

*4 éléments :*

- Filets
- Triangles extérieurs
- Chevrons
- Triangles intérieurs

A circular decorative element with a complex geometric pattern. The pattern consists of multiple concentric layers of lines and shapes. The outermost layer is a thick black ring. Inside this, there are several layers of thinner lines, some of which form a series of nested triangles pointing towards the center. The overall effect is a sense of depth and intricate detail.

A circular geometric pattern composed of concentric lines and triangles. The pattern is divided into several concentric rings. The outermost ring consists of several parallel lines. Inside this, there are concentric triangles pointing outwards, creating a series of nested triangles. The pattern is rendered in black and white, with some areas appearing to have a metallic or reflective finish. The overall effect is a complex, symmetrical geometric design.

- ✓ Filets
- ✓ Triangles extérieurs
- Chevrons
- Triangles intérieurs

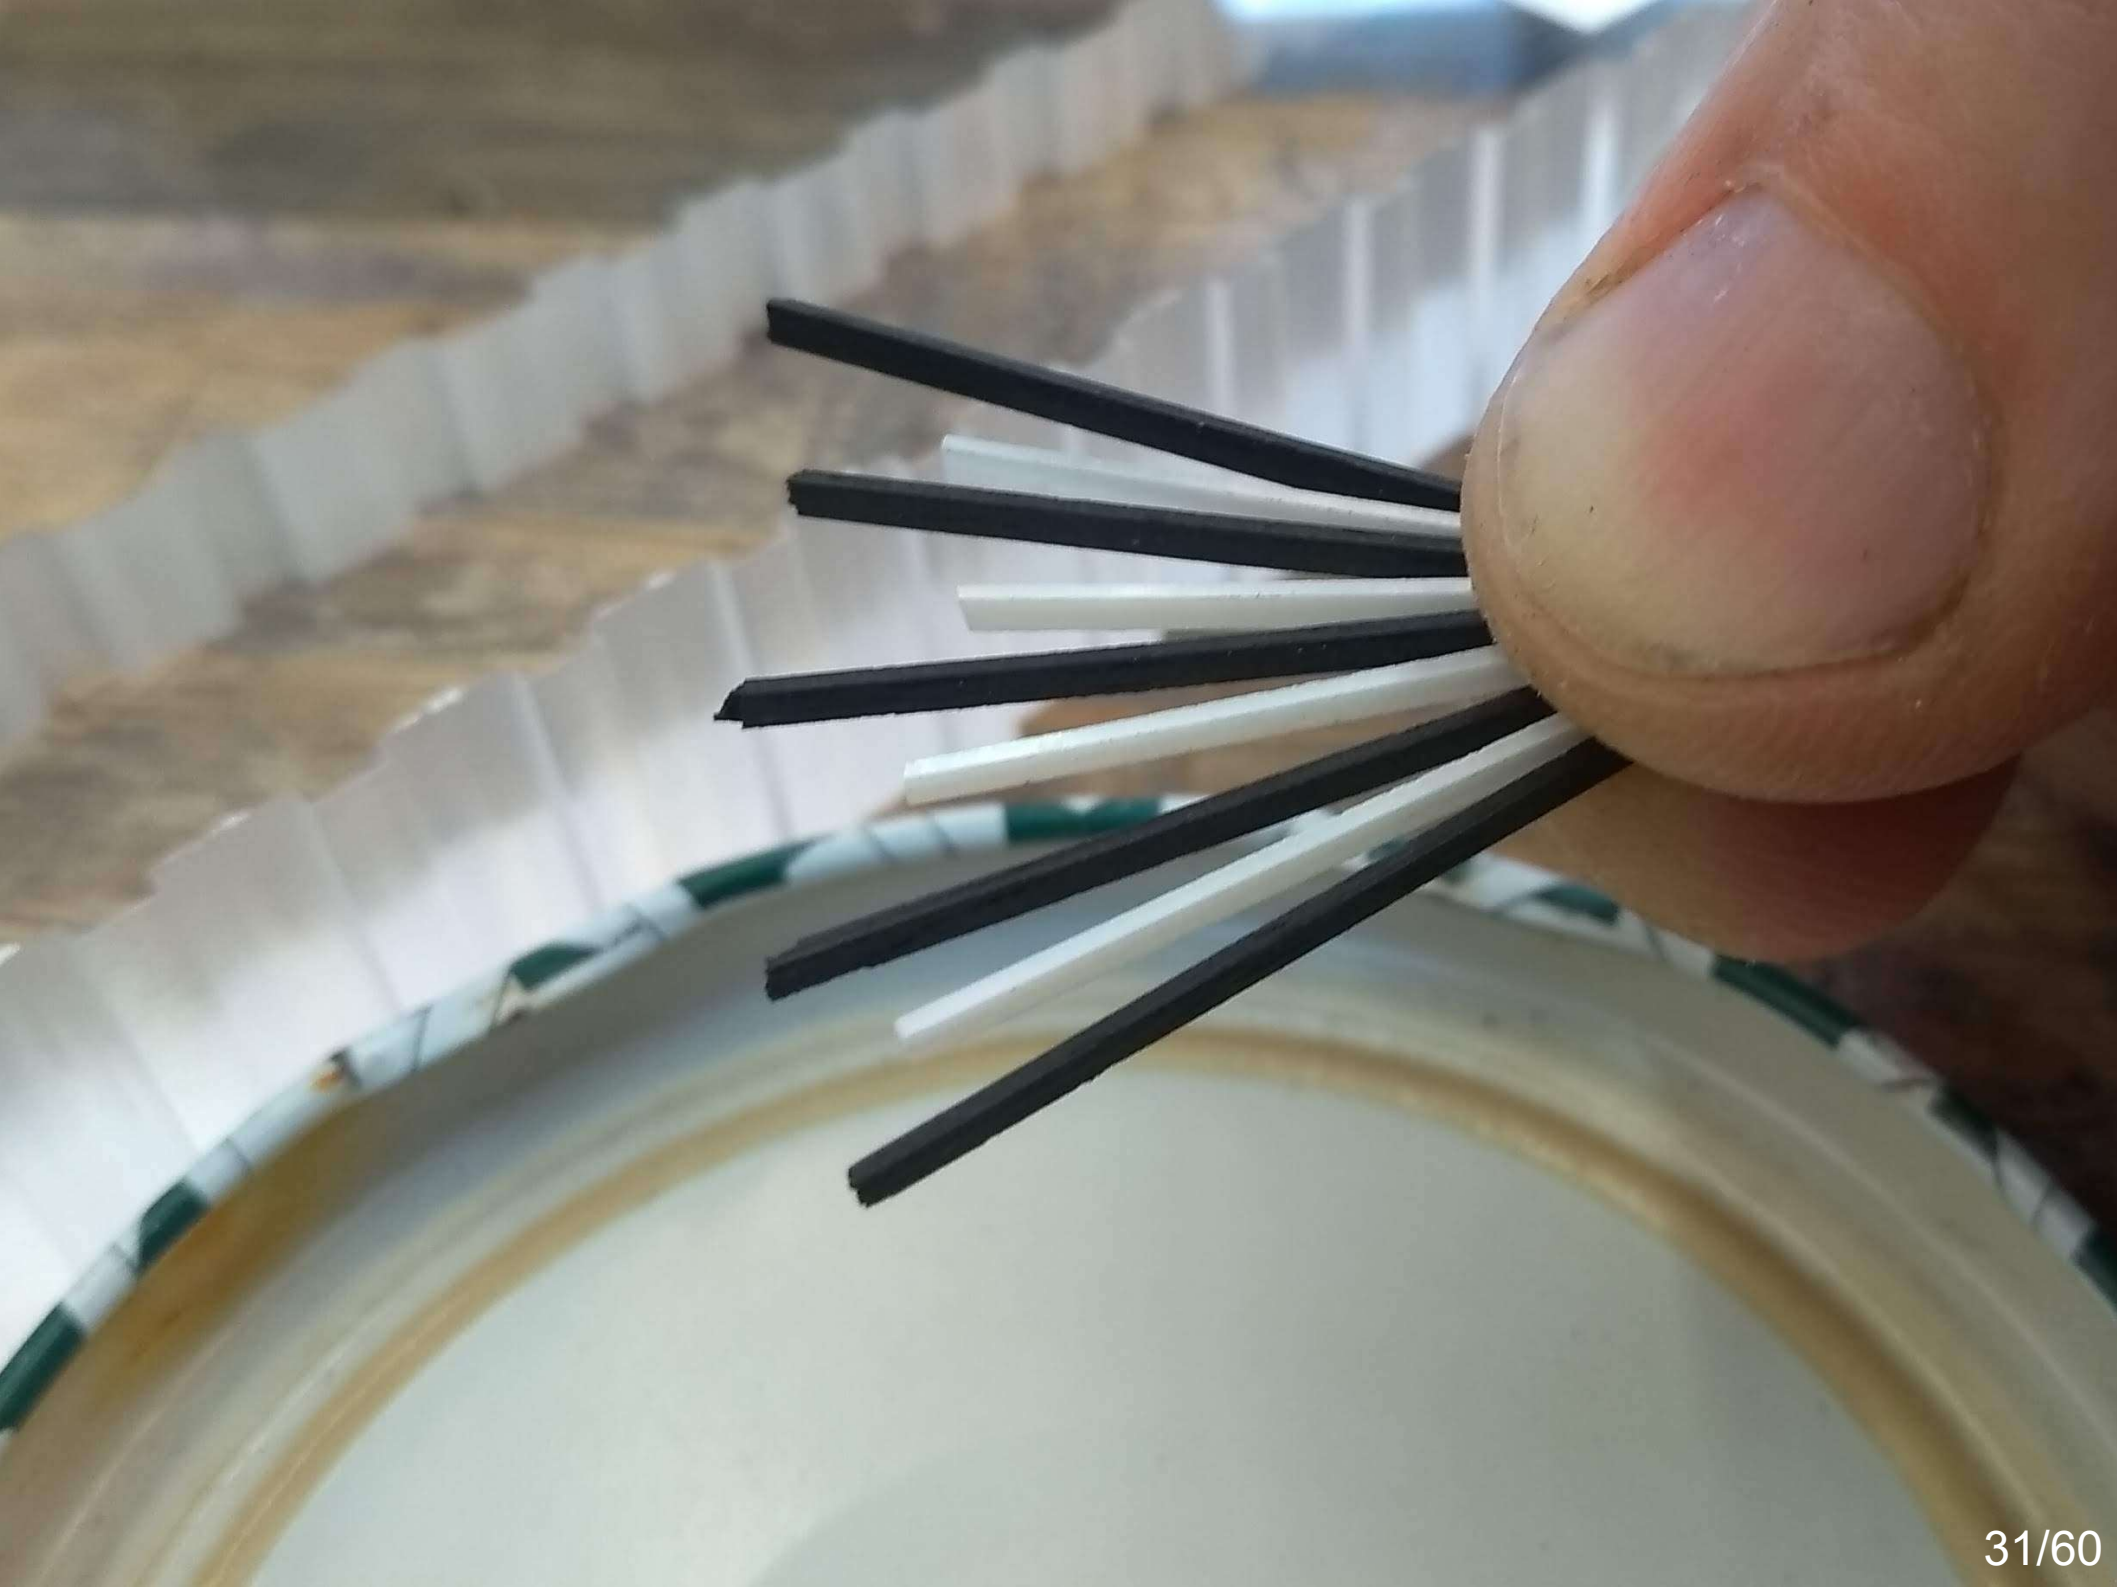

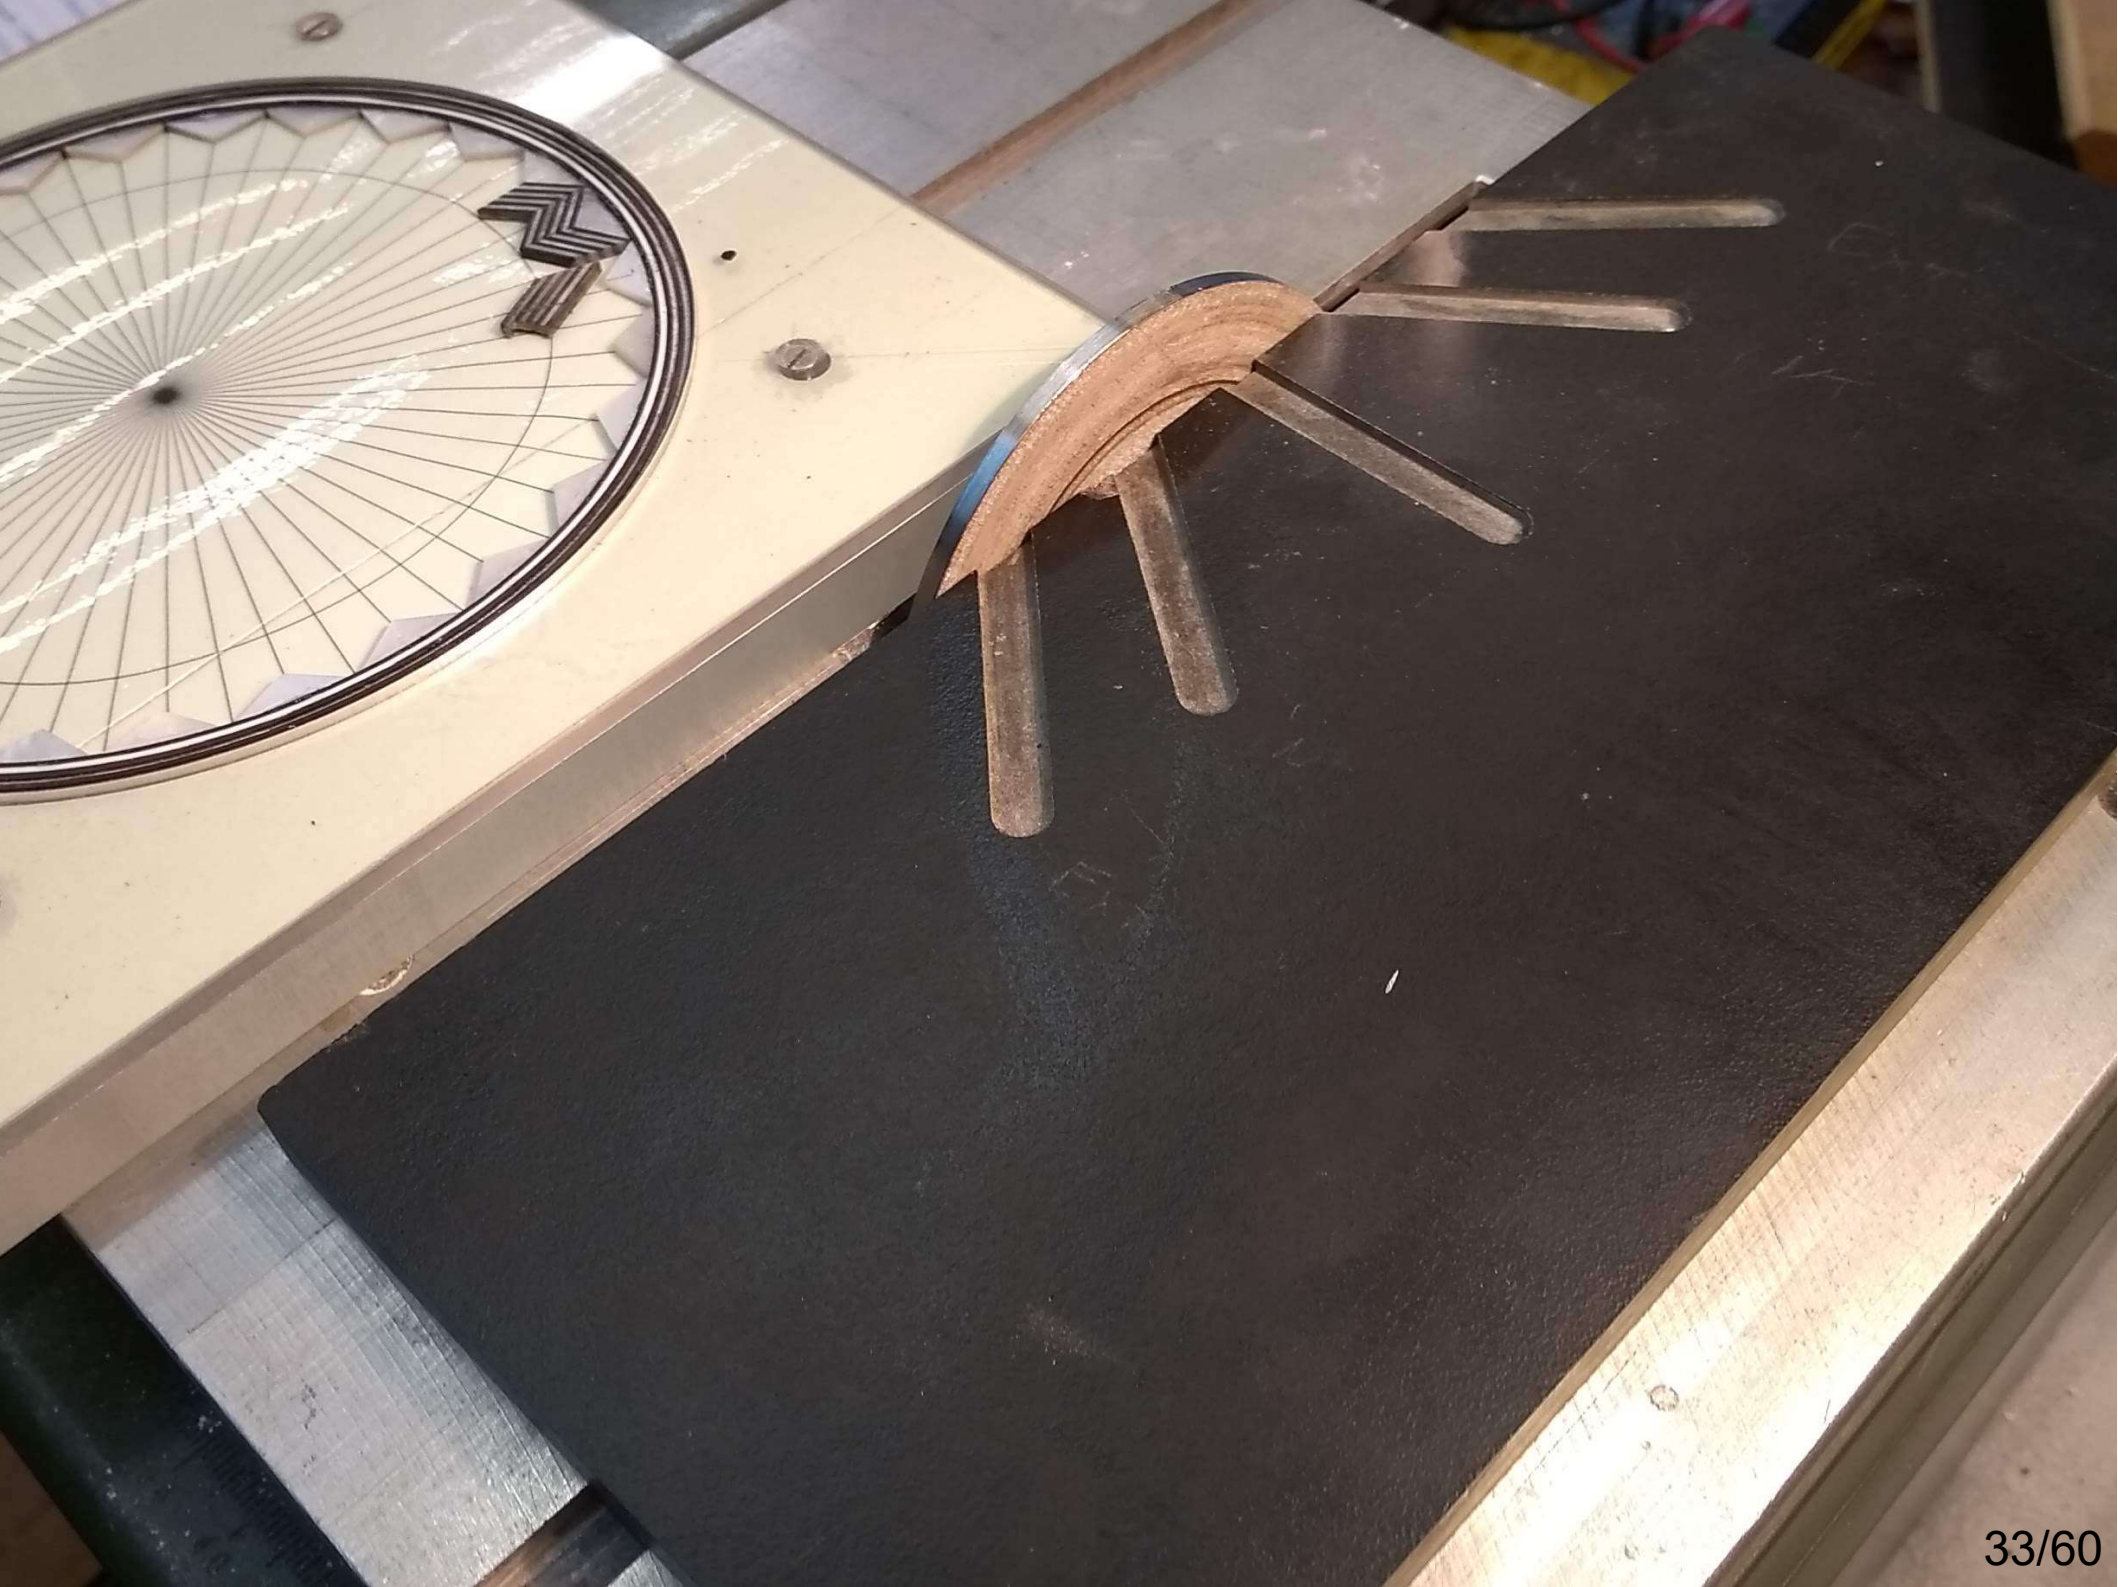

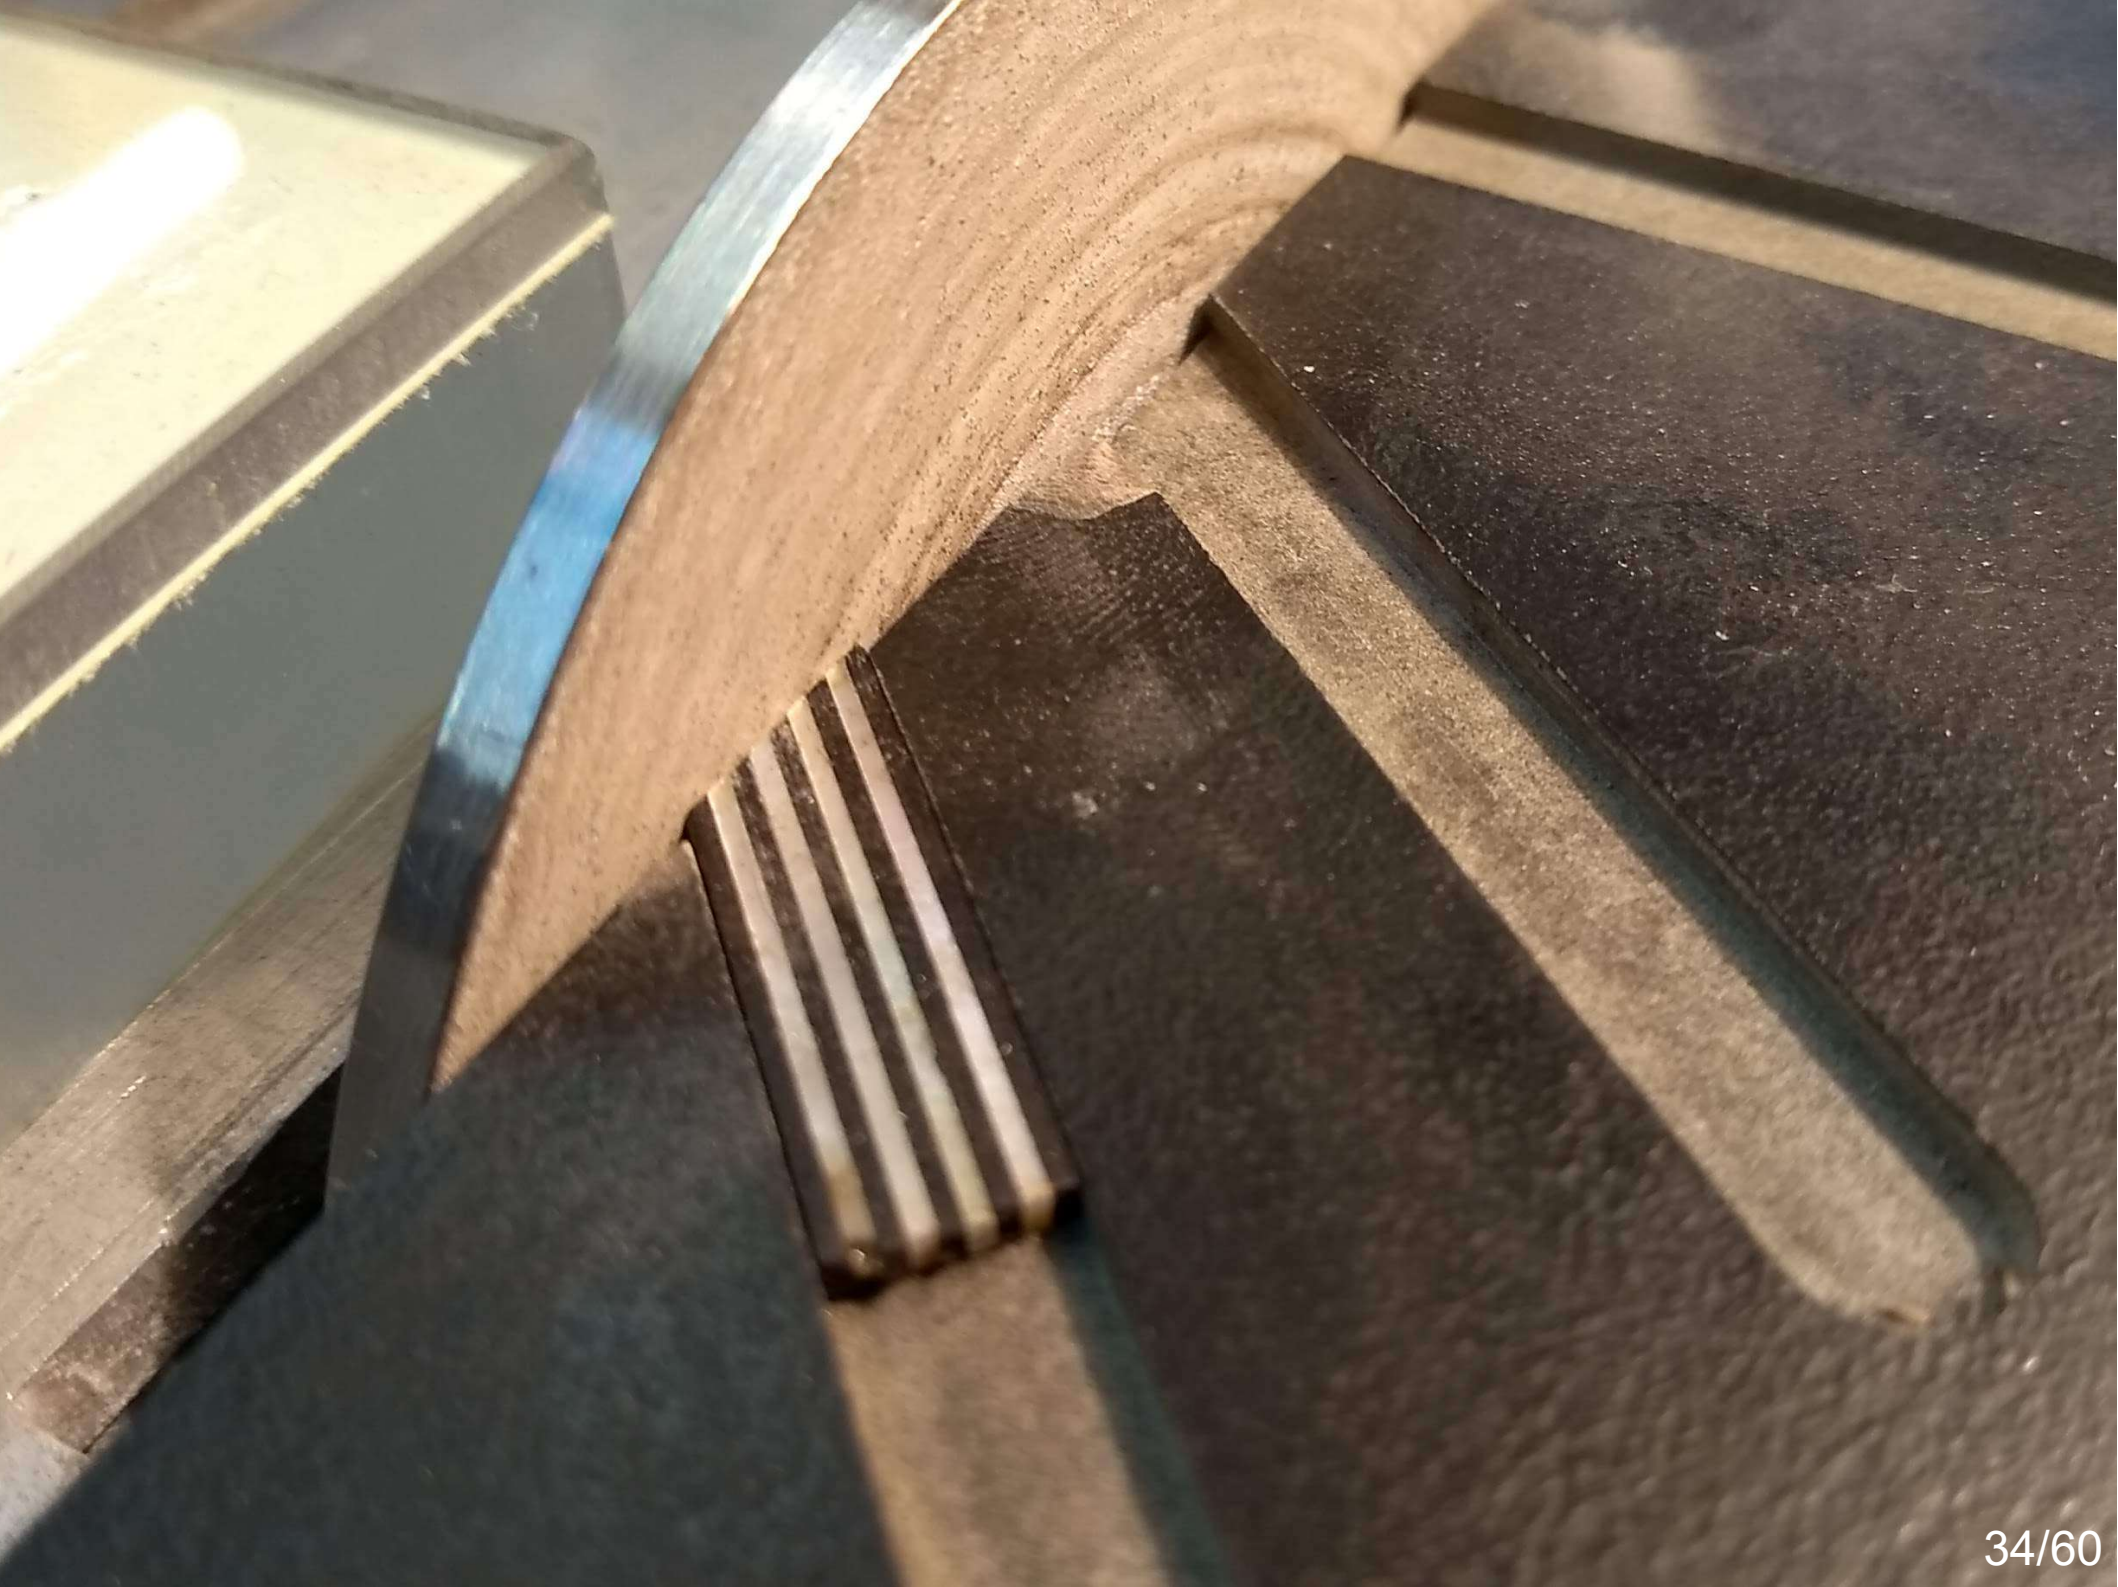

Module 6.3mm  
chevrons  
Lacote

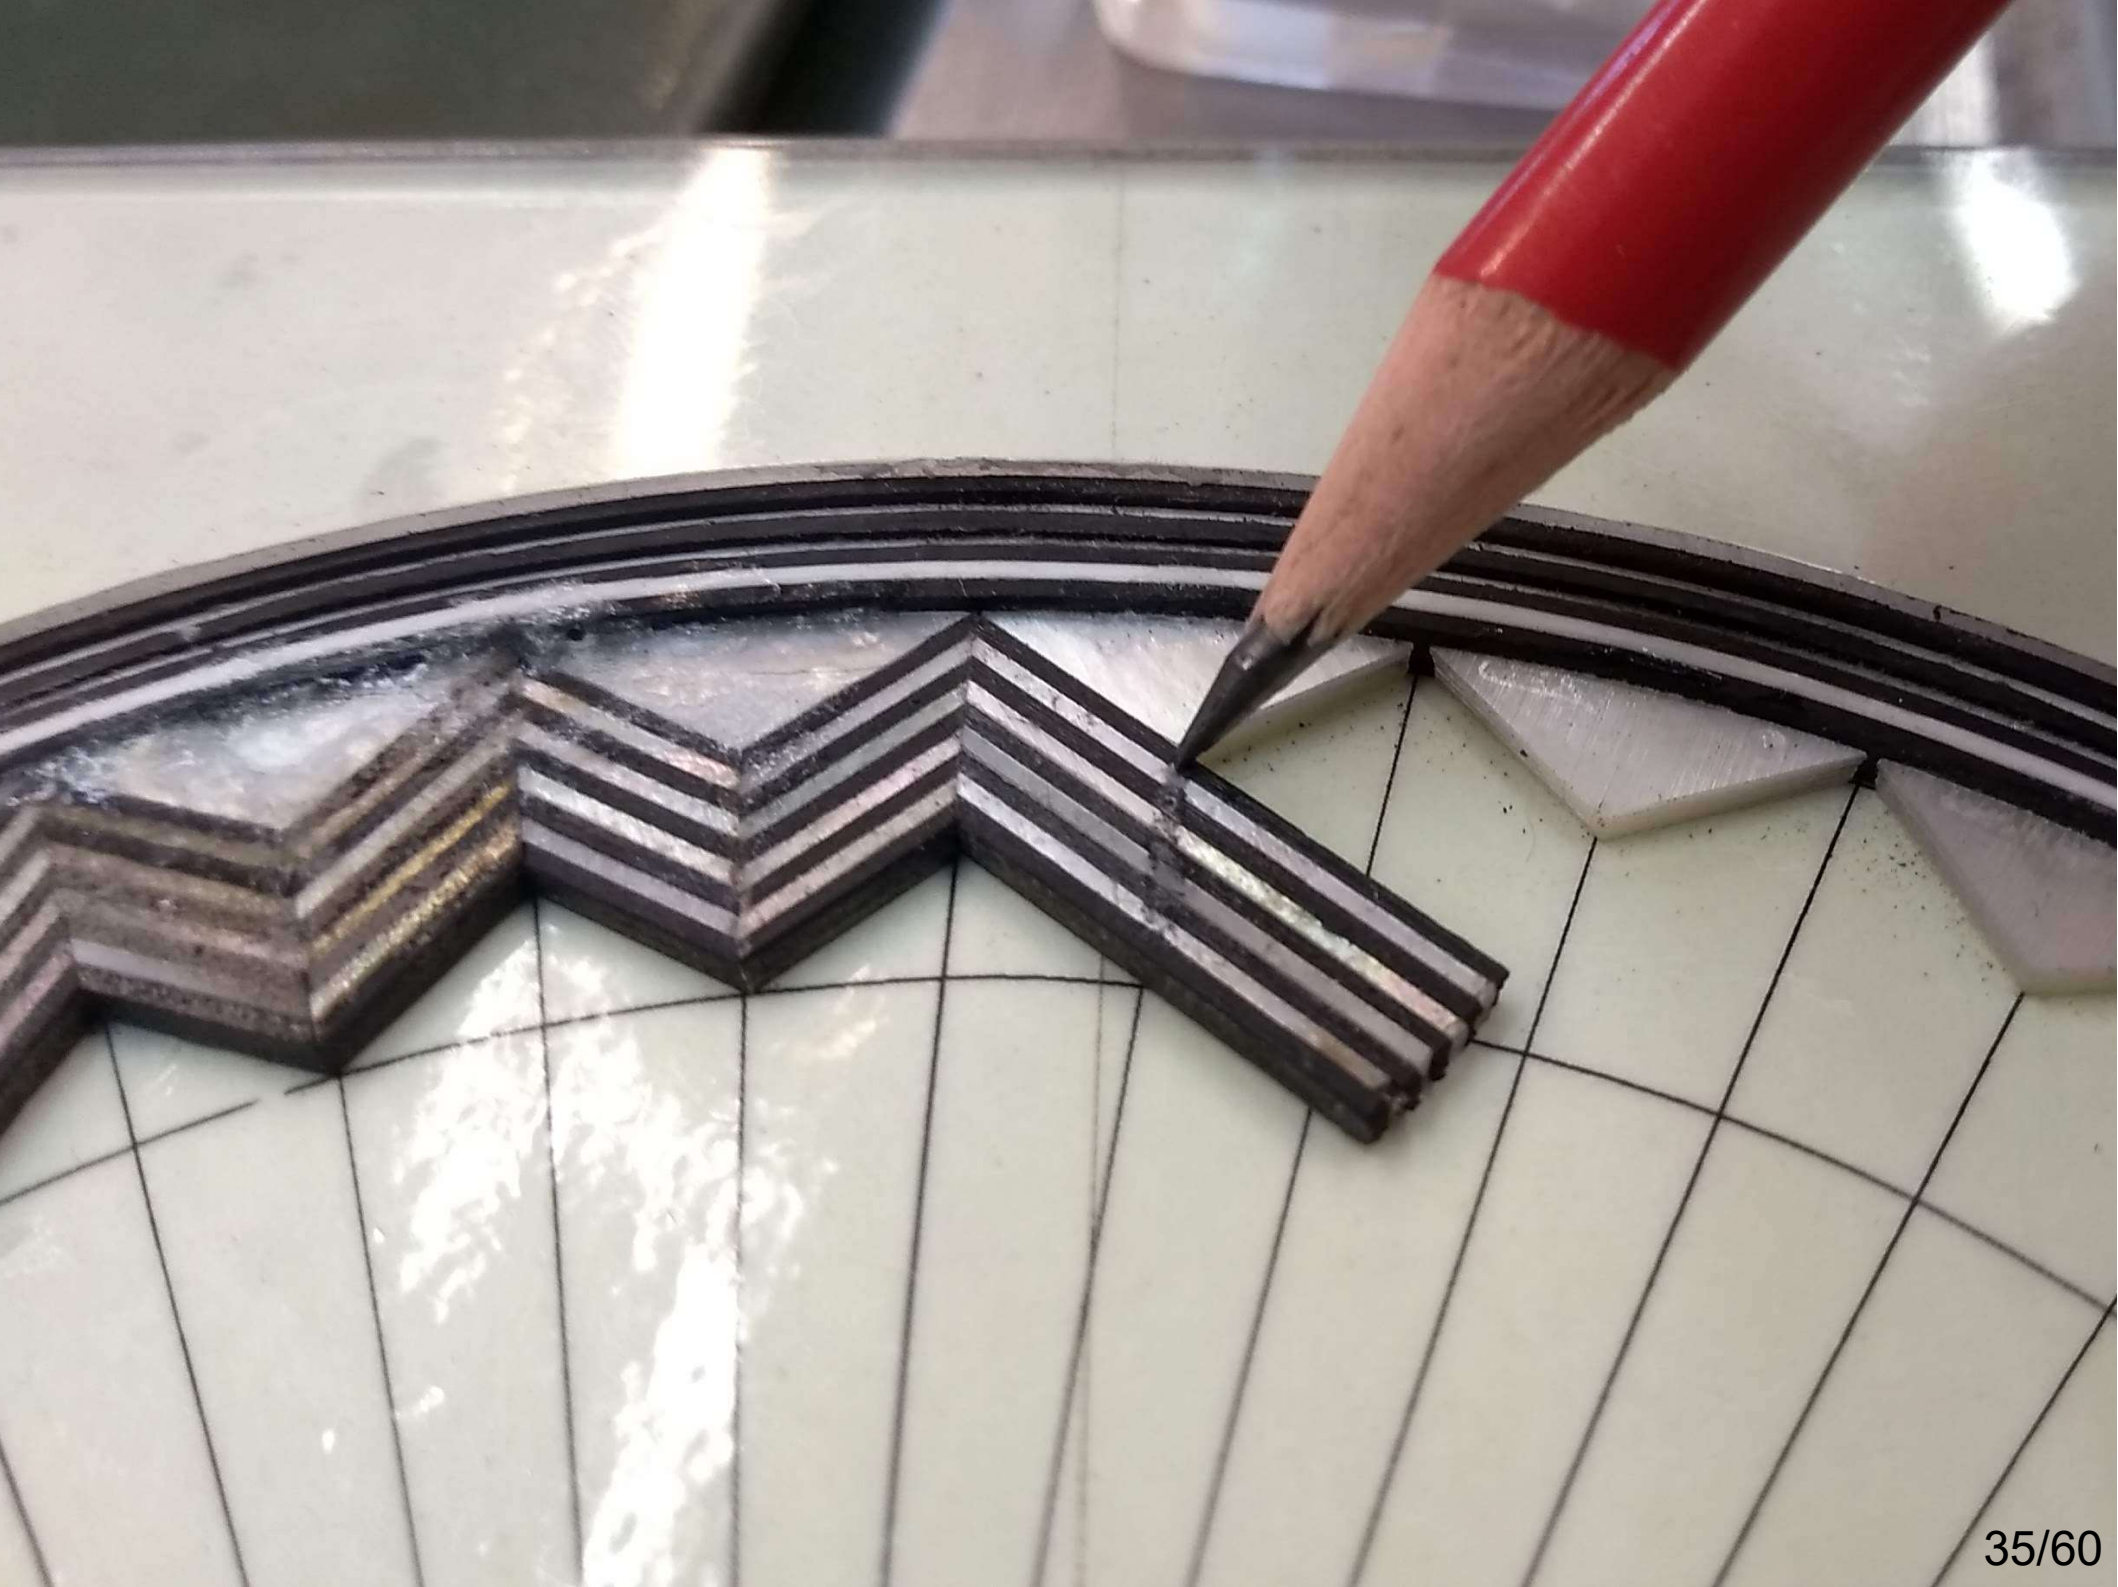

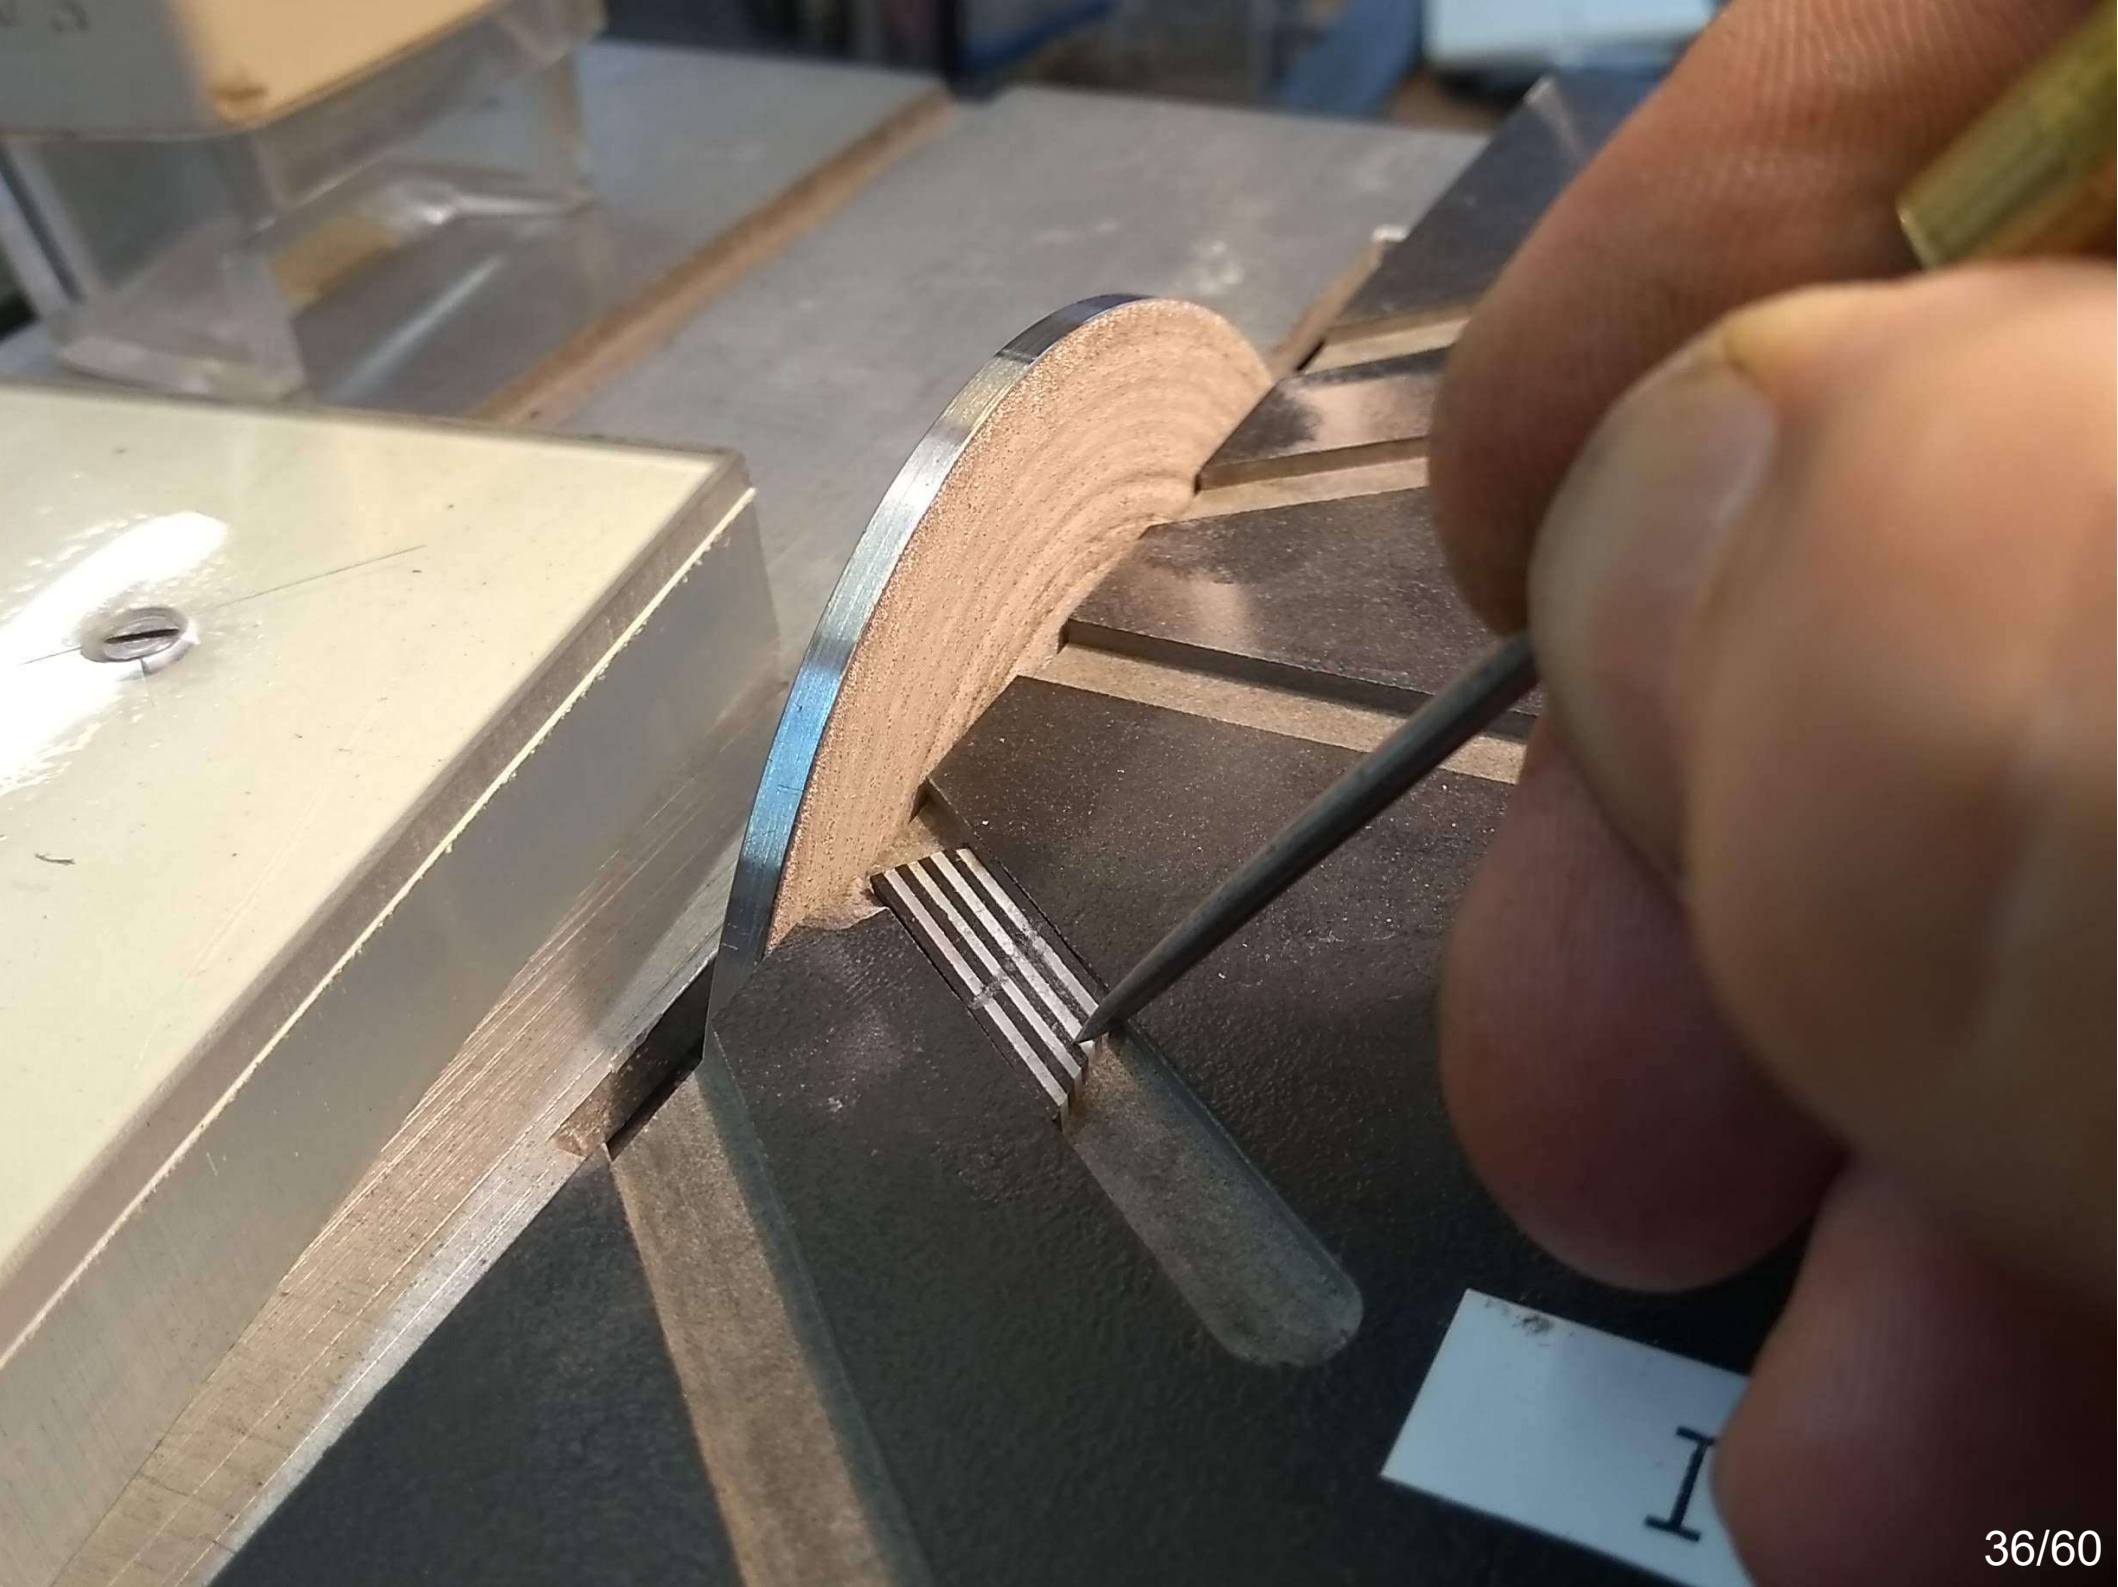

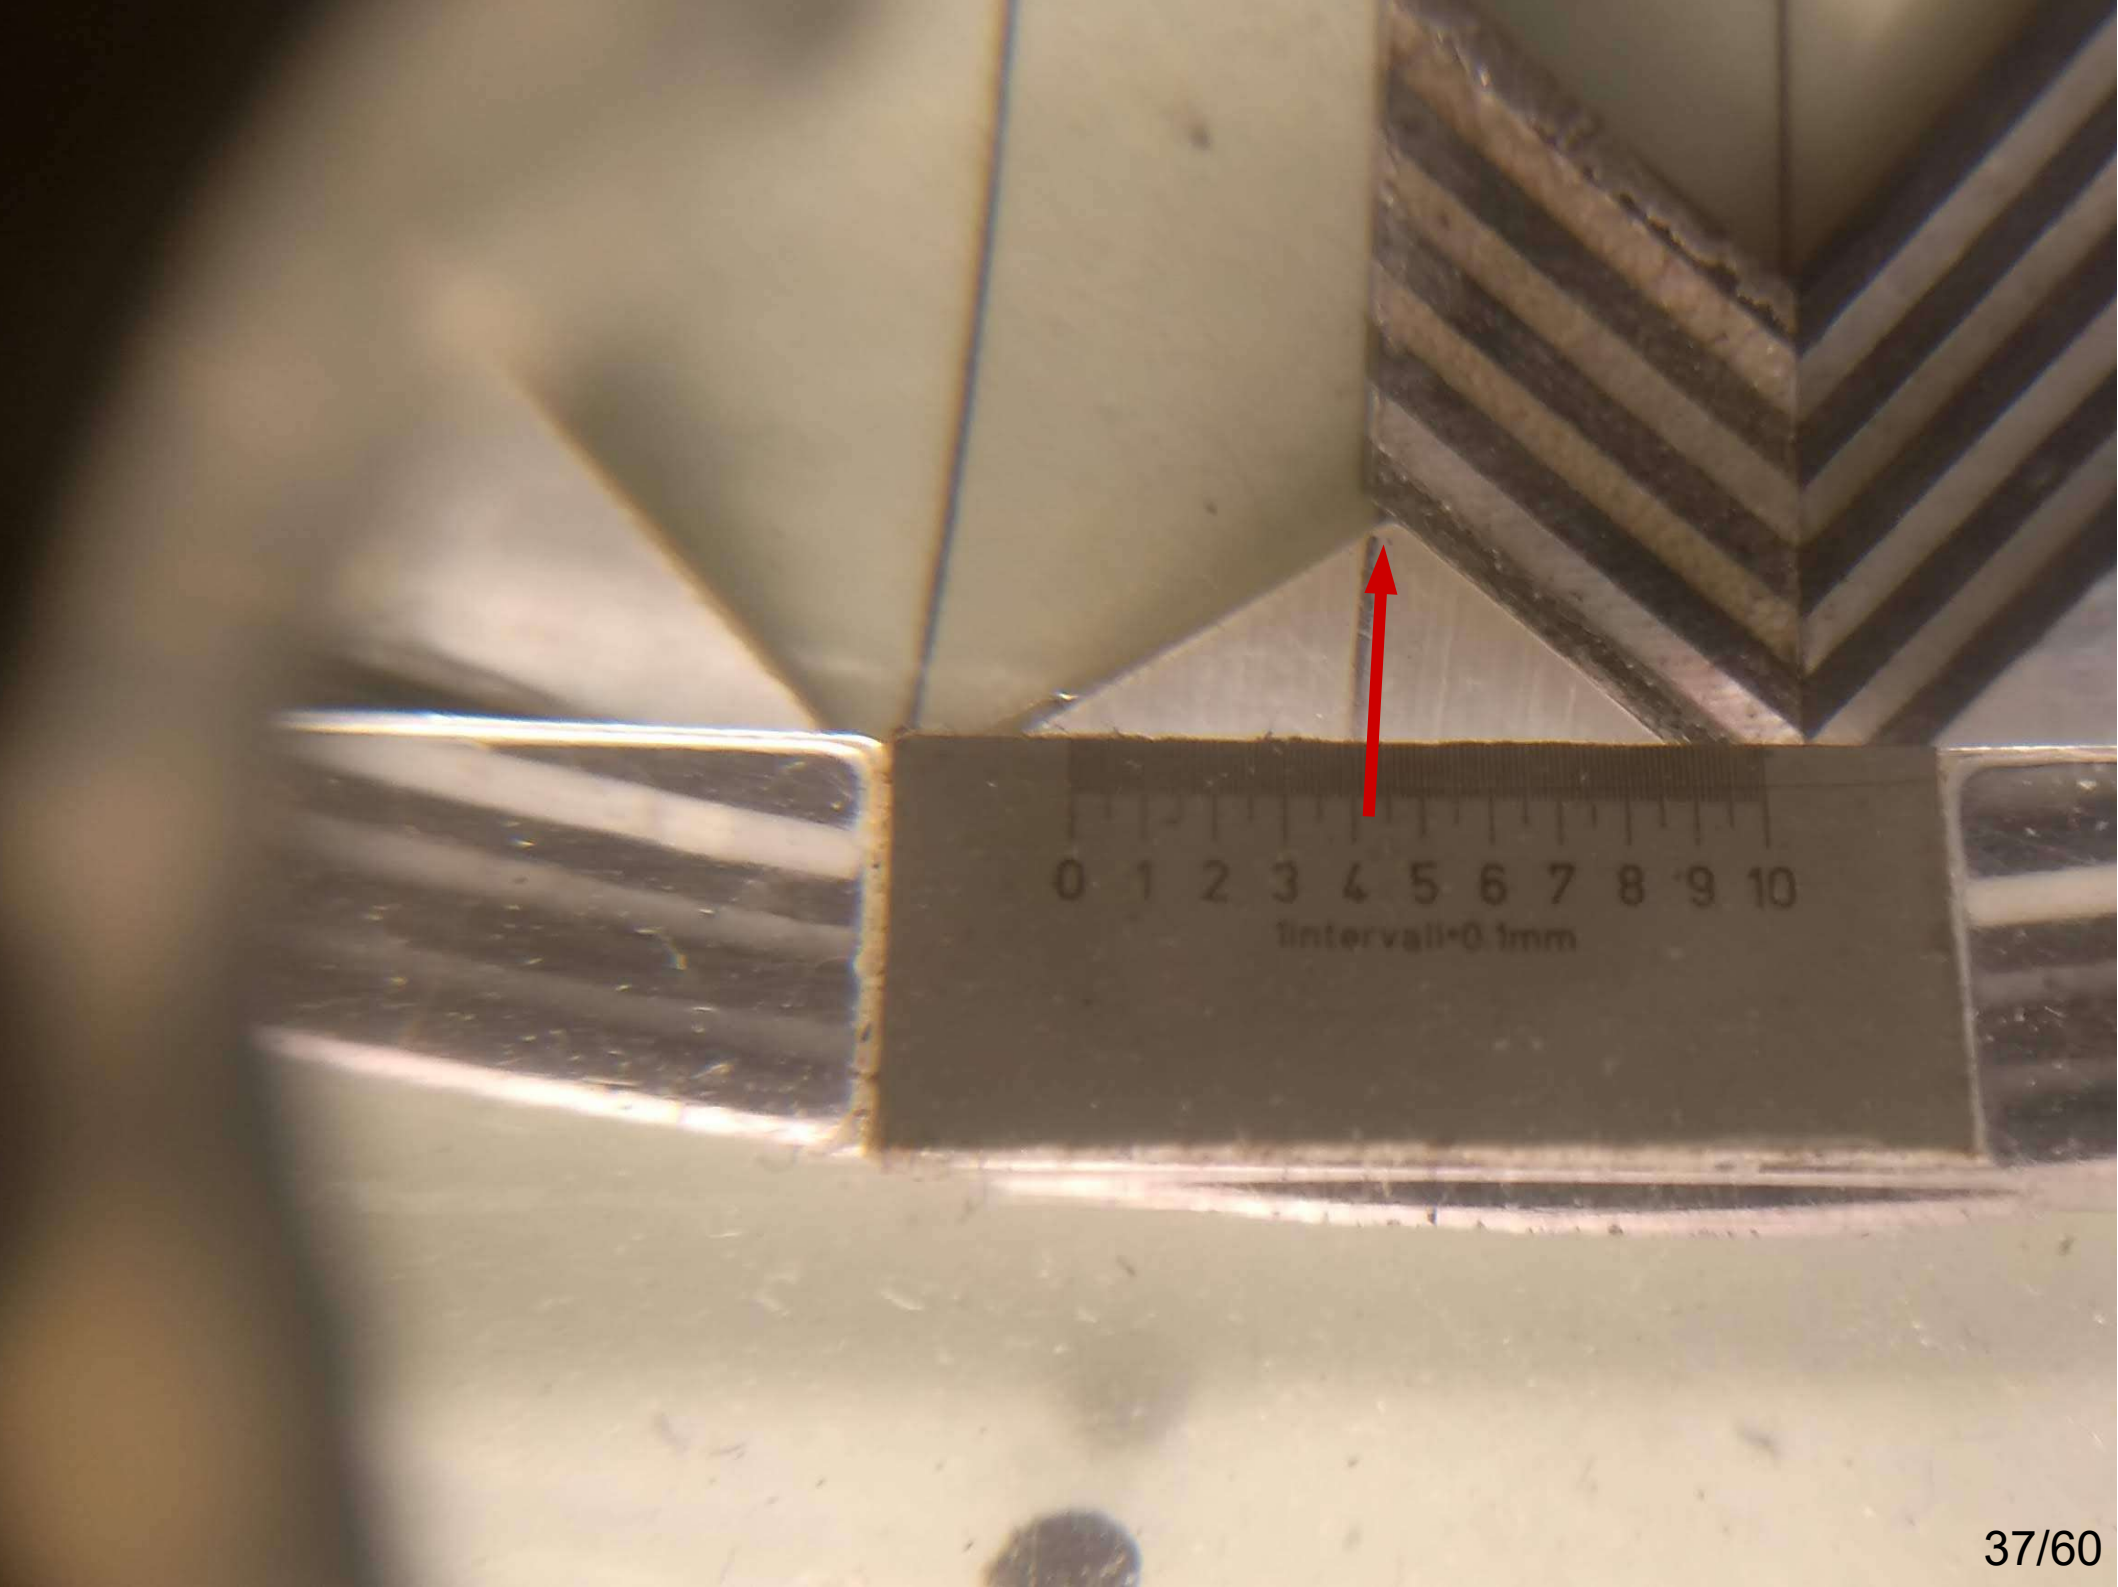

A circular geometric pattern composed of concentric lines and a central star-like shape. The pattern is rendered in black and white, with a dark background. The central shape is a complex, multi-pointed star with a series of nested lines radiating from its center. The overall effect is a sense of depth and perspective, as if the pattern is a 3D object or a complex optical illusion.

## *4 éléments :*

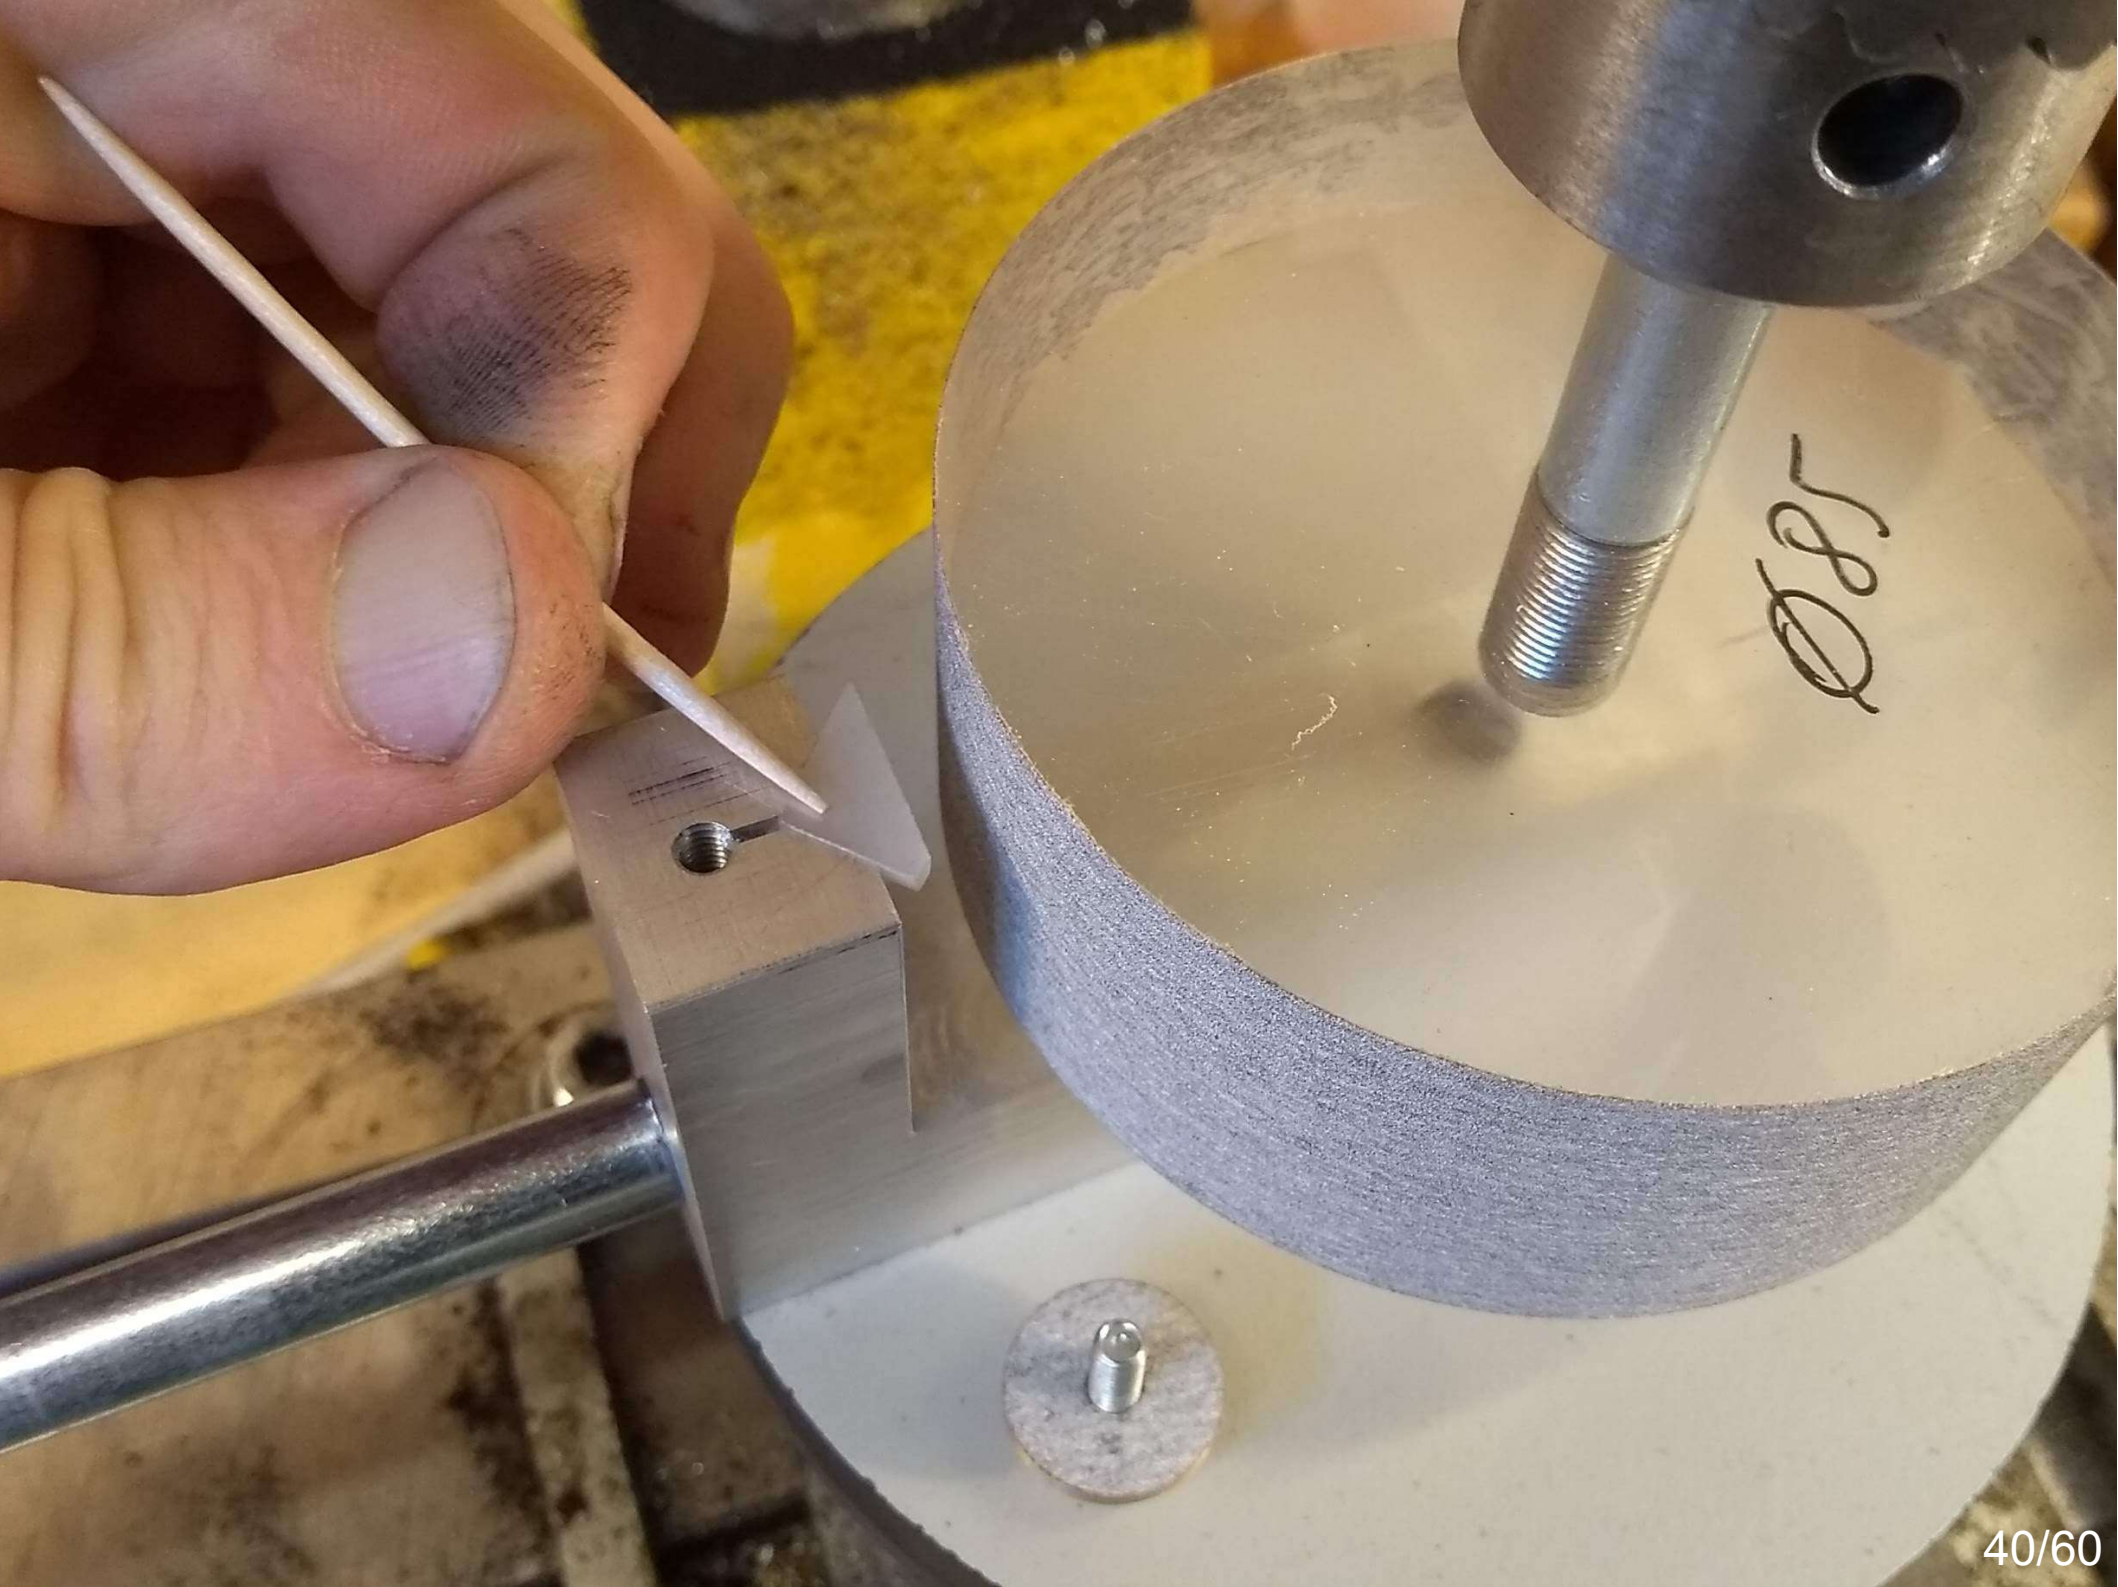

- ✓ Filets
- ✓ Triangles extérieurs
- ✓ Chevrons
- Triangles intérieurs
